

NAVEEN VINTA

Director Consulting Services

@ naveen.vinta@icloud.com (312) 622-2648 Clearance: Top Secret (Active)

Energetic and results-oriented IT leader with a vast array of experience in Cybersecurity, Solution Architecture, and Cloud computing domains across the federal government, insurance, healthcare, automotive, and academic verticals. Consistently handled multiple projects with competing priorities, built high-performing teams, and achieved excellent customer satisfaction results. Recent projects include delivering a solution expediently using the Microsoft Power Platform in response to the COVID-19 pandemic. Managed teams of up to 35 and controlled an annual budget of \$12M+.

EXPERIENCE

Director Consulting Services

📅 Sep 2020 – Ongoing

CGI Federal

📍 Fairfax, VA

Responsible for program management for the ADAMS (Agency-Wide Document Management System) and the SOC (Security Operation Center) contracts for CGI at the OCIO (Office of the Chief Information Officer) at the Nuclear Regulatory Commission.

- Assembled a team for a digital transformation initiative and generated revenue immediately by providing many capabilities to electronically submit exemption requests during the pandemic.
- Established an agile development life cycle and streamlined product releases resulting in increased efficiency and expedient delivery for the client.
- Improved client relations via scheduled touchpoints and provided thought leadership where necessary.
- Demonstrated CGI's innovation by bringing together leaders from different federal government agencies facing similar challenges and facilitating discussion in our innovation lab.
- Empowered the team to contribute to CGI's innovation community of interest in emerging technologies.
- Positioned CGI to expand its portfolio, leveraging its capabilities on relevant new opportunities.
- Improved recruitment and retention among members and helped them find opportunities to advance in their careers.

President

📅 Jan 2020 – Sep 2020

TechQuo

📍 Ashburn, VA

- Provided digital transformation and cybersecurity strategy services through **TechQuo**: a minority-owned SDVOSB. (Service-Disabled Veteran-Owned Small Business).
- Architected quick-to-market solutions leveraging SaaS and PaaS components of a hybrid multi-cloud environment.
- Helped devise cybersecurity strategies and implementation plans for government agencies.
- Advised and assisted clients with achieving FedRamp certification for their vendor GOTS(Government Of the Shelf) products.

Information System Security Officer

📅 Apr 2016 – Jan 2020

U.S.State Department

📍 Washington, D.C

- Responsible for the Information Assurance of a FISMA Moderate, High Value Asset for the department.
- Led a team of Sr.Information Assurance analysts for multiple intra and inter agency cybersecurity efforts.
- Played an active role in critical decision-making with the executive director and others for contract management.
- Reviewed the documentation for various FedRamp certified Cloud Service Providers (SalesForce, ServiceNow, Microsoft Azure, Oracle Fusion Cloud) and ensured the implementation of the controls in the customer responsibility matrix.
- Anticipated resource requirements and made requisite plans to onboard and off-board personnel based on requirement discussion, strategic plans, and other memos that influence the workload.

IT Specialist

📅 Sep 2015 - Apr 2016

Department of Labor

📍 Washington, D.C

- Served as a key-decision maker in procuring an agency wide IDaaS (Identity as a Service) solution.
 - Took stock of the multiple login's that a user has to maintain in order to have access to services provided by the office and provided a baseline for the IDaaS solution.
-

Development Team Lead**CNO Financial**

Jul 2013 – Mar 2015

Chicago, IL
