EXPERIENCE

Information Management Officer

United States Environmental Protection Agency

January 2023 – Present

- Functioned as an advisor to the Senior Information Officer (SIO) and various high-level executives at the EPA's Office of Water (OW), providing guidance on technological innovation and implementing modern technology within the office.
- Demonstrated expertise in technology and served as a liaison between IT professionals and technical program experts within OW.
- Actively participated in the Office of the Chief Information Officer and SIO's IT strategic planning, policy development, and governance implementation for the Office of Water (OW) and the entire Agency.
- Contributed to the development and execution of IT strategic plans to align with the Agency's overall strategic direction.
- Demonstrated skill in comprehensive strategic planning efforts and capital planning, investment controls, workforce planning, and policy and standards development.
- Participated in identifying, assessing, and managing risks to the office's IT systems and data, and recommended and implemented mitigation and contingency actions to address these risks.

Director Consulting Services

CGI

September 2020 – December 2022, Fairfax, VA

- Assembled and led a team to execute a cloud-first strategy, resulting in an increase in revenue and improvement in P&L.
- Successfully managed a program with three task orders totaling over 50M in value, overseeing a team of over 30 resources.
- Significantly improved client relations by providing actionable insights and recommendations for digital transformation, resulting in increased customer satisfaction.
- Proactively positioned the company to expand its portfolio by identifying and leveraging its capabilities on relevant new opportunities, resulting in an increase in business growth.
- Implemented effective strategies to improve recruitment, retention, and satisfaction for members, as well as provided coaching and mentorship to assist them in advancing their careers.

President

TechQuo

January 2020 – September 2020, Ashburn, VA

- Delivered digital transformation and cybersecurity strategy services through TechQuo, a minority-owned SDVOSB, resulting in successful implementation of digital transformation plans for clients.
- Expertly architected quick-to-market solutions by leveraging SaaS and PaaS components of a hybrid multi-cloud environment, resulting in faster time-to-market for clients' products.
- Assisted and advised clients in achieving FedRamp certification for their vendor GOTS (Government Of the Shelf) products, resulting in successful compliance and increased business opportunities.

Information System Security Officer

U.S. Department of State

July 2018 – January 2020, Washington, D.C

- Led the successful Certification and Accreditation of a FISMA Moderate, High-Value Asset for the department, resulting in compliance with federal regulations and standards.
- Acted as an active key decision-maker for contract management, including RFI/RFQ/SOW and Award/Mod processes, resulting in the successful execution of contracts.
- Reviewed and evaluated the customer responsibility matrix implementation for FedRamp-certified Cloud Service Providers (SalesForce, ServiceNow, Microsoft Azure, Oracle Fusion Cloud), resulting in improved compliance and security.
- Executed resource management based on strategic, tactical, and operational plans, resulting in efficiencies.

Brach Chief

U.S. Department of State

November 2017 – July 2018, Washington, D.C

Served in the role of a Supervisory IT specialist in the Executive Office of the Bureau of Human Resources and managed a team of 20 resources for a portfolio of applications, including Post Personnel, PCS Travel (Permanent Change of Station), FSBid (Foreign Service Bidding), and TalentMap.

- Led the effort to modernize current applications and morph them into a Service Oriented Architecture (SOA), resulting in improved functionality and scalability.
- Improved customer service for the bureau and the department at large for HR IT functions, resulting in increased satisfaction and streamlined processes.

Information Technology Specialist

U.S. Department of State

April 2016 – November 2017, Washington, D.C

- Served as a Project manager for PeopleSoft ERP systems – GEMS, EOD (Entrance on Duty), and HRCC (Human Resources Customer Care) applications.
- Developed detailed plans in MS Project, including planning, scheduling, resource management, and team building for complex projects and tracked those to completion, resulting in successful project completion.
- Supervised and led a team of 12 business analysts and data analysts, and performed requirements management and business process improvement/re-engineering, resulting in improved processes and increased efficiency.

Information Technology Specialist (APPL SW)

U.S. Department of Labor

September 2015 – April 2016, Washington, D.C

- Worked as an IT Specialist in the Office of Information Systems and Technology (OIST) under the Employment and Training Administration branch, overseeing the work of contractors.
- Involved in procuring a department-wide IDaaS (Identity as a Service) solution, resulting in improved security and streamlined access management across the organization.

Software Design Reviewer (Consultant)

USCIS/NTT DATA,

July 2015 – September 2015, Washington, D.C

- Actively involved in the effort to digitize various immigration forms (N-400, I-90, and others) administered by USCIS (the United States Citizenship and Immigration Services) as part of their immigration portfolio, utilizing cutting-edge open-source technologies.
- Led a pilot project to implement open-source software and a dev-ops culture among large agencies, resulting in improved efficiency and cost savings.

Information Systems Auditor/Sr. Liferay consultant

Quinnox

February 2015 – July 2015, Chicago, IL

- Developed a pilot application for Datu Health (part of St. Joseph Health), a healthcare-based startup initiative in Denver, CO.
- The portal interfaced with health/activity tracking devices to incorporate data and leverage intelligence in health recommendations to the users, resulting in improved health outcomes for patients.

Sr. Lead Application Developer

Bankers Life

May 2013 – March 2015, Chicago, IL

Sr. Developer

Ford Motor Company

August 2007 – April 2010, Dearborn, MI
